-cloth, wood, paper, leather

Q: What's your phone **made of**?
A: It's **made ~~by~~** glass, metal and plastic.
A: It's **made of** glass, metal and plastic.

3. Discussion questions:

1. How is the traditional clothing of your country?
   I like it. It's made of a really nice cloth and it is often made by skilled artisans so it looks quite beautiful. It's not very comfortable to wear though.

2. Would you ever buy a counterfeit designer product?
   No, I'm not a fan. It's usually made of cheaper material and doesn't last very long. It's not durable. But the price is always good!

3. Would you ever try a dish made of an exotic animal?
   Sure! It is unusual but in Australia we eat kangaroos, emus and crocodiles. In Korea there is a lot of seafood that seems exotic to me like live octopus legs. That was a scary experience for me but I enjoyed it.
