- You won't be safe **if** you don't put a seatbelt on when you ride in the car.

3. Discussion questions:

1. What behaviors did your parents warn you about most often when you were a child?
   My mum always said to me: "If you don't wear a helmet when you ride your bike, you will be in big trouble."
   My teachers always said to me: "Don't take drugs or you will fail school."

2. What are some things people should definitely not do on a date?
   I think people shouldn't be so stifled when they're on a date or the date might be terrible. If they focus on trying to have fun and simply getting to know their date then maybe it will be enjoyable.
