Questions 21-24 refer to the following report.

Quarterly earnings figures released this month by TVI Electronics showed a substantial 21. (D) increase in revenue thanks to the success of the company's latest laptop model, the Z2. The Z2, which offers unlimited cloud storage, a powerful processor, and a long-lasting battery and has been a big hit with consumers 22. (C) ever since its launch at the end of last year. ------ The company now aims to build

23

on this success by rolling out new models in the Z range aimed at different market segments. TVI CEO Yasmina Berocal stated that she takes an "extremely positive future view" on the company's mid-term growth prospects, though she admitted that year-on-year profits may be down due to the 24. (C) shrinking of the company's presence in the smartphone market. Positive market sentiment predominated, with shares rising 2 percent on the announcement.
