파트2-길거리 공연사진답

This is a picture of a street music performance. There are many people in this picture. In the foreground of this picture, two men are playing the guitars while sitting on chairs. One of them is wearing a black short-sleeved T-shirt and he has a tattoo on his right arm. In front of him is a small table covered with a black table cloth and a lap-top computer is on the table. In the background, I can see some people watching the music performance, and I can also see other people walking along the street. Judging by the clothes people are wearing in this picture, it seems to be summer.

No, I don't. This is because as you know, nowadays, many people can have easy access to the Internet through their smart phones or tablets. So, in this regard, using their smart phones to search for information is very convenient. So, the internet is a good source of information. For example, when I do some reseach for school assignments(or work projects), I usually use my smart phone to surf the Internet for information.
