In my case, summer is my favorite time of the year to go to the park. This is because I can take a walk in the park more often than any other time of the year.

5번.

Well, it depends on the situation, but in general, I go to the park with my family or my friends. Sometimes, I go to the park with my dog to walk him.

6번.

Yes, I do. This is because there is no park in my area. So, it would be great if a park would be built in my area. If so, I would go to the park very often with my family or my friends. In addition, I could enjoy a variety of outdoor activities such as camping, picniking, and riding a bicycle in the park. (So, in this regard, I want more parks to be built in my area.)

In my case, I prefer to watch a movie at home rather than at a movie cinema. This is because I don't have much time to go to see a movie due to my busy work schedule.

6번.

Yes, I do. This is because I can avoid watching a bad movie. For example, if a moive has many good reviews from many people who have watched the movie, at least the movie would not be so bad. So, in this regard, I usually check the movie reviews before I choose what movie to see.
