Well, it depends on the situation, but in general, I run in the park near my house three times a week. I wish I could run more often than that because I don't have much time due to my busy work schedule.

5 번.

In my case, I prefer to run with others rather than to run alone. This is because running together with others like my family or my friends is more fun and enjoyable than running alone.

6 번.

I think there are some advantges of running. One advantage is that I feel good and energized after running. In addition, running can help me stay healthy and keep in good shape. Also, it can reduce the risk of adult diseases such as diabetes, high blood pressure and obesity. So, in this regard, I think running has some benefits as exercise.

Hello, Jane Jackson. This is Jennifer Smith. I am returning your voice message regarding your problem. According to your message, the number of customers has been decreasing. So, you need my advice on how to get your customers back and keep other customers. Here is my suggestion for you.

First of all, why don't you keep the prices of menu as low as possible? For example, if your restaurant provides the same good quality of food with lower prices for your customers, your customers will visit your restaurant again. I think it is the most effective way to solve the problem. In addition, it it a good idea to hold some promotional events like early bird discounts of a free cup of coffee. I hope this will help you solve the problem. If you need more help, please call me back anytime. Bye.

Hello, Jean. This is Jennifer. I am returning your voice message regarding the problem. According to your message, some people living in the building didn't put the cleaning tools in the right place after using them. So, you need my advice on how to solve the problem. Here is my suggestion for you.

First of all, it is very important to let people living in the building know about the situation. So, why don't you place a notice on the bulletin board of the building so that people will be more careful about the issue(=placing the cleaning tools in the right place after using them)? I think it is the most effective way to solve the problem. In addition, it is a good idea to make a broadcast (=send out a broadcast) about the issue through the building. I hope this will help you solve the problem. If you need more help, please call me back anytime. Bye.
