1. Skill Practice 1

Listening

W : Hey, what's wrong? You look worried.

M : Oh, hey. It's just that I promised to take my friend to the airport, and guess what, I have a flat tire.

W: Oh, no. What happened?

M: I don't know. I was just about to take off and pick up my friend at her place. But I just found out that one of the front tires got busted, I really don't know what to do. I think it's too late for her to find someone else.

W: Didn't you say that you have a concert tonight?

M: Yeah, that just makes things worse! I was gonna go to this huge concert that I

ve been looking forward to right after dropping her off, but it seems like there are no alternatives.

W : It sounds like you have a big problem. Well, why don't you take a taxi? I mean, taking a taxi is a convenient and fast way to go to the airport. If you hurry, you might get back in time for the concert.

M : I thought about that already, but taxi fares are just too expensive. I can't afford to spend that much on going to the airport. It's too far from here. I bet it costs a fortune!

W : I see. Since you wanted to go to concert too, I guess money can be a real problem.

M: Exactly, after that taxi fares, I wouldn't have enough money for the concert ticket at all!

W: Hmm. How about borrowing your roommate's car for a few hours? Hasn't he borrowed yours before?

M: Yeah, he did last week.

W: See? I'm sure he would understand as long as you offer to pay for the gas that you'd use for the trip.

M : Well, I guess that could be a solution, but.. I really don't know about that. My roommate is always busy after classes, and he might have to go somewhere today. Also, he's in class right now, so even if he has no plans, I can't ask him right now. I just don't know what to do. I'm so frustrated!

Speaking with Templates

1. 문제점

The man's problem is that he has to take his friend to the airport and wants to go to a concert afterwards, but he has a flat tire. So, he doesn't know what to do.

2. 연결

Regarding this problem, there are two possible solutions suggested for him.

3. 해결책 1/2

The first one is to take a taxi.

The second one is to borrow a car from his roommate.

4. 의견

In this case, I think the first solution is better for him

5. 이유 1

This is because, as he mentioned in the dialogue, his roommate is always busy and he is in class right now, so he cannot even ask him.

6. 이유 2

Also, the gas fee that might be used for the trip will be the same as taxi fare. So, it will be the same for him to take any options in terms of paying a certain amount of money.

7. 결론

So, for these reasons, I think the first solution is better.

Full Response 1

The man's problem is that he has to take his friend to the airport and wants to go to a concert afterwards, but he has a flat tire. So, he doesn't know what to do. Regarding this problem, there are two possible solutions suggested. The first one is to take a taxi. The second one is to borrow a car from his roommate. In this case, I think the first solution is better for him. This is because, as he mentioned in the dialogue, his roommate is always busy and he is in class right now, so he cannot even ask him. Also, the gas fee that might be used for the trip will be same as taxi fare. So, it will be the same for him to take any options in terms of paying a certain amount of money. So, for these reasons, I think the first solution is better.

Full Response 2

I think in this case the second solution is better for him. This is because, as he mentioned in the dialogue, taxi fares are too expensive. If he pays for the taxi fare, he won't have enough money for the concert ticket. (Since he wants to go to a concert after dropping her off, I think he should save some money for that.) Also, since his roommate once borrowed his car before, I don't think it will be too difficult for him to ask a favor. I am sure his roommate will lend him his car. (Since his roommate is in class right now, he can simply text him. If his roommate has

some plan, there is no alternative but to take a taxi.) So, for these reasons, I think the second solution is better.

2. Skill Practice 5

Listening

W : Oh, no!

M : What's wrong?

W : Chemistry 431 isn't being offered this semester.

The professor is on sabbatical. But, it's my last semester, and

I need to take it. It's a required course. What am I supposed to do?

M : Oh, I heard that most of the required courses are offered during the summer too. And I took one of them last year.

W : I can't come back in the summer; I'll be working. This is awful. Do I have to come back for another semester just to take one course? Oh my, I just can't believe this.

M : Well, that's Applied Organic Chemistry, right? They offer the same kind of course in the graduate program. You could always go and talk to the professor and explain the situation. I'm sure they'd let you register for it.

W : Oh really? But that kind of worries me. I mean, it's a graduate course. It'll be a lot harder, don't you think?

M : Um, it could be.

W : Organic chemistry isn't my strongest subject, so taking it at the graduate level might be too challenging for me. What if I fail the course or get a bad grade!

M : I'm sure you'd do fine.

W : You never know.

M : If you're that worried, why don't you see if they offer the same course at Centennial College? I think you can check on-line. And

if they do, you might be able to take the course there, and then have the credits transferred to your degree here. Since your situation is pretty unusual, I guess the university won't be that

picky about transferring the credits.

W : Hmm. Centennial? It is pretty far away from here. You know I live in a dorm, right? Plus I don't have a car. I'm not so sure I want to go all the way there just to take one course.

M: I am sure you can find some transportation. It's located in downtown.

W: I guess! But, it's not guaranteed that I can have the credits transferred. Do you remember Becky? She took courses during the student exchange program. She thought it was certain that she could get her credits transferred here, but it turned out that she couldn't. What a hassle!

3. 해결책 1/2

The first one is to take a course in a graduate program.

The second one is to take a course at a different college downtown.

4. 의견

In this case, I think the first solution is better for her

5. 이유 1

This is because, the college downtown is too far from where she lives and since she doesn't have her own car, it will be inconvenient for her to get there. And I believe a long distance commute is too exhausting and her grade might be negatively affected.

Also, it's not even guaranteed that she can have her credits transferred. Her friend had a similar case before.

Full Response 1

The woman's problem is that she has to take one of the required courses but it's not offered this semester. So, she doesn't know what to do. Regarding this problem, there are two possible solutions suggested. The first one is to take a course in a graduate program. The second one is to take a course at a different college downtown. In this case, I think the first solution is better for her. This is because the college downtown is too far from where she lives and since she doesn't have her own car, it will be inconvenient for her to get there. Also, it's not even guaranteed that she can have her credits transferred. (Her friend had a similar case before.) So, for these reasons, I think the first solution is better.

Full Response 2

In this case, I think the second solution is better for her. This is because taking the course in a graduate program might be too challenging for her. As a result, she might fail the course or get a bad grade. Then she has to suffer from a low GPA. These days, there is too much competition in the job market. So, without a good GPA, it's really hard to get a job. So, for these reasons, I think the second solution is better.

조커 답안 ♠♥♣

5번 조커

Personally I had exactly the same case before, ~ 단점

- 1) 시간이 많이 걸렸다 → It didn't take that much time.
- 2) 돈이 많이 든다 → It didn't cost that much money.

3) 교수가 엄격하다 / 예외가 없다 → I was excused by the professor/department.

4) 어렵다 → Graduate course was not that difficult.

Since this is an unusual circumstance, I think 누구 would understand that.

Skill Practice 1

다음 두 학생의 대화를 들어보세요

여 : 안녕, 왜 그래? 무슨 걱정 있어?
 남 : 어, 내가 친구를 공항에 데려다 주기로 약속했는데, 글썄, 타이어가 펑크 났어.
 여: 오 저런, 무슨 일 있었어?
 남: 모르겠어, 지금 막 떠나려던 참이었어 그리고 친구를 데리러 가려고 했는데, 앞쪽에 타이어 하나가 펑크난 것을 이제 알았어. 정말 어떻게 할지 모르겠어. 다른 사람을 알아보기에는 너무 늦었어.
 여: 오늘 밤에 콘서트 있다고 하지 않았어?
 남: 맞아! 옆친 데 뢰친 격이야! 그녀를 데려다 주자마자 바로 고대하던 대형콘서트에 가려고 했는데, 대안이 없는 듯해.
 여 : 꽤 큰 문제가 있는 것 같구나. 택시 타고 가는 건 어때? 공항에 갈 때는 택시가 편하고 빠르잖아. 서두르면 콘서트에 늦지 않게 돌아올 수 있을거야.
 남 : 이미 생각해 봤는데, 택시비는 너무 비싸. 공항에 가는 데 그렇게 돈을 많이 쓸 수는 없어. 여기서 너무 멀어, 엄청나게 돈이 많이 들거야.
 여: 알겠어, 콘서트도 가고 싶어했으니까. 돈이 문제가 될 수 있겠구나.
 남: 내 말이! 택시비 내고 나면, 콘서트 티켓 비용이 없을 것이 분명해!
 여 : 흠. 룸메이트 차를 몇 시간 동안 빌리는 건 어때? 개가 네 차를 빌린 적도 있지 않아?
 남: 응, 지난주에

여: 그럴 수도! 그래도 여전히 학점 인정을 받을 수 있는 것이 보장되어 있지 않아. 베키 기억나? 교환학생 프로그램 때 수업을 들었는데, 학점 인정받을 수 있을 것이라고 확신했었는데, 결국 그럴 수 없었어. 아, 혼란스러워!
