Question 유형 1

❖ 선호

두 가지 행동, 상황, 의견 중 어떤 것이 더 마음에 드는지 선택하고 그 이유를 나열하는 문제

❖ Sample Question

Some students like to study at home.

Others prefer studying in the library.

Which place do you prefer to study in and why?

Include details and examples in your explanation.

Sample Answer

Personally, I think that the best place to study is the library. First of all, there are fewer distractions there. At home, my family is always interrupting me, and it's easy to just turn on the TV or my computer. But at the library, it's quiet and easier to study. Also, I like studying at the library because I'm close to a lot of resources. Most of my classmates study there, so if I have a question about something, I can simply ask them. And, of course, there are lots of reference books in the library that I can easily find information in, too. (So, I would rather study at the library than at home.)

eat at restaurants vs. eat at home

→ Cooking (Lesson 01 - Drill practice 5)

Full Response

I think I'd have to say that I prefer to eat at home. The first reason is that I can save money. Since I am a student, I am living on a very tight budget now. So, I cannot afford to pay for expensive food outside of the home. When I eat at a restaurant every day, it costs a lot of money for me.) Another reason is that I want to improve my cooking ability. If I know how to cook food, I can invite many people to my house for meals. Then, it will be really helpful for my social skills as well.
