3. Sample Question

Listening

M : Just getting back from work? What's wrong? Busy day?

W : No, it's not that... I thought this job would be great. Since I study biology, being a laboratory research assistant sounded like a great experience for me. I thought I'd be doing experiments and preparing lab reports. But, the problem is that my professor only wants me to type and answer the phone.

M : Well, you should let him know that you want to be more involved in the lab work. Maybe he'll give you more responsibilities.

W : Hmm. I'm not so sure. There are already two research assistants helping him. I'm not sure there'd be anything left for me to do.

M : Well, it wouldn't hurt to try. Or, why don't you try to get a job in a different

lab? You could go up to the Biology Department and check the notice board.
They're always advertising available jobs there.

W : I doubt it. It's already the middle of the term. All of the jobs have probably
been filled already.

M : You never know; there might still be something available.

Speaking with Templates

1. 문제점

The woman's problem is that she is not satisfied with her job as a lab assistant. So, she doesn't know what to do. She thought her job would involve more responsible work (such as preparing lab reports or doing some experiments,) but she only does very simple tasks (such as answering the phone or typing.)

2. 연결

Regarding this problem, there are two possible solutions suggested.

3. 해결책 1/2

The first one is to ask the professor for more responsible work.

The second one is to find a job at a different lab.

4. 의견

In this case, I think the first solution is better for her

5. 이유 1

This is because, as she mentioned in the dialogue, it's already the middle of the semester. So, all the jobs might have been filled. So, I don't think she can easily find a job.

6. 이유 2

Also, even though there are two assistants helping the professor, I am sure there might be some jobs left for her to do. (And if she asks for more work, the professor might be impressed by her passion towards work. And then she might be given more responsible work.

7. 결론

So, for these reasons, I think the first solution is better.

Full Response 2

In this case, I think the second solution is better for her. This is because, as she mentioned in the dialogue, there are already two assistants helping the professor. So, even if she asks for more work, I don't think there will be any job left for her. Also, even though it's already the middle of the semester, I am sure there might be some jobs available for her. So, I think she should give it a try. So, for these reasons, I think the second solution is better.

Sample Question

다음 두 학생의 대화를 들어보세요.

남 : 일하고 바로 온 거야? 무슨 문제 있어?
바빴어?

여 : 아니, 그게 아니라... 난 이 일이 굉장히
좋을 줄 알았어. 내가 생물학을 공부하니깐
실험실 조교는 아주 좋은 경험이 될
거라고 생각했거든. 실험도 많이 하고
실험실 보고서도 준비하게 될 줄 알았는데.
문제는 교수는 나한테 타이핑하고 전화
받는 것만 시켜.

남 : 흠, 네가 실험실 일에 더 관여하고 싶다는
뜻을 비쳐야 할 것 같은데. 그러면 더
책임감 있는 일을 주지 않을까?

여 : 흠... 잘 모르겠어. 이미 교수를 도와주는
조교가 2명이나 있어. 내가 할 일이 남아
있는 지나 모르겠어.

남 : 글썄, 시도해봐서 나쁠 건 없잖아. 아니면
다른 실험실에서 일자리를 구해보는 건
어때? 생물학과에 가서 게시판을 체크해봐.
항상 가능한 일자리를 공지하던데.

여 : 글썄, 이미 학기가 반이 지나갔어. 아마
일자리는 다 찼을 거야.

남 : 그건 모르는 거지. 아직 남아 있을 수도 있
어.
