### Learning Strategies

Do you agree or disagree with the following statement?

**The most effective way to learn about a foreign country is to read newspapers or magazines from that country.**

Use specific reasons and details to support your answer.

#### ➤ sample answer

First of all, a better way to get to know a foreign country might be to watch movies or TV dramas from that country. Usually movies and TV dramas show the way people live. We can not only know what the campus life looks like by watching a sitcom set at a university, but also imagine what office life looks like by watching a business drama. In the same way, people in many countries learn about Korean culture by watching Korean dramas. Moreover, sometimes foreigners learn about the history of a country by watching TV dramas made in that country. Many famous dramas filmed in Korea illustrate its historical events. Thus, it is safe to say that watching many dramas and movies produced in a foreign country is the best way to learn about that country.
